EDUCATION

B.Tech in Computer Science & Engineering (Data Science) , Oriental Institute of Science and Technology, Bhopal (GPA: CGPA: 8.48)	Jan '24 — Jan '28 Bhopal, India
BS in Data Science - Foundation Level , Indian Institute of Technology Madras (IIT Madras) (GPA: CGPA: 6.88)	Jan '24 — Jan '25
Class XII , St. Theresa's Girls School, Bhopal (GPA: Class XII - 79.8% (2022) Class X - 92.8% (2020))	Jan '20 Bhopal, India

SKILLS

Programming Languages Python, Java, C, C++
Web Development HTML, CSS, JavaScript, Bootstrap, Node.js
Data Structures & Algorithms DSA in Java
Databases SQL, MongoDB
Data Science & Analytics Pandas, NumPy, Matplotlib, Seaborn, Statistics, Data Analysis
Computer Vision & Automation OpenCV, Selenium
Tools & Platforms Git, GitHub, VS Code, Streamlit
Business & Productivity Tools MS Excel, Power BI, MS Word, PowerPoint
Design & Content Creation Canva, DaVinci Resolve

EXPERIENCE

Co-Head - Media & Publicity Student Activity Council (SAC), OIST	Jan '25 — Present
- Manage publicity and promotional content for campus events. - Coordinate with teams to improve event communication and outreach.	
Data Science Intern PYTHON	Jan '12 — Jan '26
- Worked on Python programming, computer vision with OpenCV, and automation using Selenium. - Built small applications including image processing tools and basic AI prompt workflows.	

PROJECTS

Portfolio Website

- Developed a responsive personal portfolio showcasing skills, projects, leadership experience, and achievements.
- Implemented interactive UI elements and a clean, modern design.

Spotify UI Clone

- Built a responsive music streaming interface inspired by Spotify.
- Designed playlist sections, navigation sidebar, and media controls.

Simon Says Game

- Developed an interactive memory game featuring pattern recognition and progressively challenging sequences.

Web Development Projects

- Built multiple mini-projects including a Pet Adoption Website, Photography Page, Random Color Generator, Random Number Generator, To-Do List Application, and Guess My Favorite Movie Game.
- Strengthened skills in responsive design, DOM manipulation, and interactive user interfaces.

Computer Vision Toolkit

- Implemented cat face detection and human facial feature detection using Haar Cascades.
- Built a real-time eye blink detection system using webcam input.

Web Automation Bot

- Automated YouTube search and video playback using Selenium WebDriver.

Generative AI Experiments

- Explored prompt engineering techniques, token optimization, and AI workflow experimentation.
